

You are interested in getting your message across as clearly as possible, and meeting capacities and facilities alone do not suffice. Colour, fragrance and taste improve memory and motivation and determine our mood. Whether for learning, sharing, networking, selling or creating; the right mood of your congress, meeting or event is of vital importance for maximum profit. Experience the singular meetingmoods meeting concept and create the right mood for your event.

At Jaarbeurs Utrecht, senses are stimulated in order to reinforce your meeting. The halls have a media tape, with which each hall can be quickly provided with its very own colour and atmosphere. The moodmakers provide advice about the choice of music, reception, furniture, the proper food & drinks and even the temperature. They have been trained to create the proper mood for each meeting, be it a congress for 1,000 people or a meeting for 10: their extensive experience in best practices ensures a meeting that fits your objective.

With 27 meeting halls, 4 congress halls, 4 banquet halls, the Beatrixtheater and the Expozaal, the Jaarbeurs is guaranteed to provide the hall you require. The innovative Media consists of 17 halls, which can also be combined. A meeting with workshops in various halls, a congress with an exhibition or a gala dinner with a festive evening: anything is possible.
